1. There is no air activity at the present time. The runways are probably not being used since the cement used for the construction is of such poor quality that it breaks in pieces when heavy planes land and start. The runways are to be cemented again.

2. At the present time there are 52 twin jet bombers at the field. Every day bombs are driven to the field.

The unloading is performed by Russian soldiers. The bombs are stored in barracks behind Denot II. The depot is strongly guarded. [redacted] the bombs come from Brandenburg.
